

One product. Two frame choices.

REAL GRANITE. GOOD TIMES.

Real 3 cm granite playing surfaces with outdoor-stained and sealed cedar or painted metal frames. Each complete set includes two granite boards, two frames and eight competition-quality bags.

GRANITE TOP	48 in long x 24 in wide x 1 3/16 in thick
STONE THICKNESS	3 cm (1 3/16 in)
CEDAR FRAME SET	\$1,495 per complete set
METAL FRAME SET	\$1,595 per complete set
STANDARD CONFIGURATION	Non-anchoring
PERMANENT ANCHOR PACKAGE	Optional +\$50 per set for Cedar or Metal

Prices exclude applicable tax and freight. Installation and custom branding are quoted separately.

Granite board: outer plan view

Schematic outer envelope only. Not to scale.

Hole, frame and anchor dimensions are not shown. Detailed, project-specific installation information is provided separately when applicable.

Granite is a natural material. Color, pattern, mineral content, and veining vary from slab to slab. These natural variations are expected and make each StoneBuilt set unique.

Plan the place to play.

PLACEMENT, ANCHORING & CARE

Optional Permanent Anchor Package

StoneBuilt sets are supplied in a standard non-anchoring configuration. For commercial or public installations, an optional Permanent Anchor Package can be added for \$50 per set, allowing the frame to be anchored to concrete. Local installation may be available; installation outside our service area is performed by the customer or contractor.

Site preparation & handling

Place standard sets on a reasonably flat, stable surface. For the Permanent Anchor Package, the customer or installer is responsible for providing a suitable concrete surface unless installation is specifically included in the StoneBuilt quote.

The granite can separate from the frame. Plan handling and reassembly; do not assume lifting a frame will retain its slab. Confirm access, unloading and final placement arrangements before delivery.

Approximate component planning weights: 123 lb per granite surface and 23 lb per frame. Packed shipment weights are confirmed per order.

Hardware type, fastener locations, concrete requirements, embedment and engineered performance are not specified in this pack. Obtain confirmed details for the chosen frame and installation before work begins.

Pickup, delivery & freight

Nationwide freight shipping is available. Freight is quoted separately based on destination, quantity, delivery requirements, and site access. Freight is not included in product pricing unless specifically stated in the quote.

Pickup is available in Denison, Texas. Free local delivery within our 60-mile service area includes unloading and placement on an accessible ground-level patio or similar spot, subject to address and access confirmation. Anchoring installation is a separate scope.

Curbside freight does not include backyard placement or assembly. Confirm unloading and receiving arrangements. Inspect the shipment and packaging, document visible damage on the delivery receipt and contact StoneBuilt promptly; retain the packaging.

Maintenance

Occasional cleaning is normally all that is required. Stone sealer may be applied periodically if desired, following the sealer manufacturer's instructions.

Periodically inspect anchor hardware on anchored installations. Use mild soap or neutral stone cleaner and a soft cloth; check frame finishes and address wear or damage as needed.

Ready for your project.

PURCHASING & SPECIFICATION LANGUAGE

Timing & purchasing

Most standard StoneBuilt orders are ready within 2 weeks or less. Large-quantity, customized, or commercial projects receive a project-specific lead time. Transit and delivery scheduling are additional.

Purchase orders accepted from approved commercial, government, and educational customers. Tax-exempt purchases accepted with a valid exemption certificate. Payment terms are established per project.

Commercial quotes are valid for 30 days unless otherwise stated. Quote requests are typically answered within 1 business day. For larger or custom commercial projects, the working policy is a 50% deposit to begin production, with the balance due before shipment or delivery unless approved purchase-order or payment terms state otherwise.

Custom logos and graphics are available by quote. Granite or color samples may be available by request for legitimate commercial or specification projects. Availability and any cost are confirmed individually.

One-year limited warranty

One-year limited warranty against defects in materials and workmanship under normal intended use. Coverage does not extend to vandalism, misuse, improper installation, major impact damage, or normal natural-stone variation. See the full warranty for terms and exclusions.

Read the full terms at stonebuiltcornhole.com/warranty. This pack summarizes the product; it does not replace the full written warranty.

Suggested product specification

Provide StoneBuilt Cornhole granite cornhole sets manufactured in Denison, Texas. Each complete set shall include two real 3 cm granite playing boards, each 48 in x 24 in x 1 3/16 in, two cedar or painted metal frames as selected, and eight competition-quality bags. Standard configuration is non-anchoring. Where concrete anchoring is scheduled, request the optional Permanent Anchor Package and confirm attachment and installation details before installation.

Suggested "or approved equal" language

Basis of design: StoneBuilt Cornhole or approved equal. Submit product data demonstrating the specified real-granite playing surface, board dimensions, selected frame material, included components, maintenance requirements and one-year limited warranty. Submit proposed anchoring and installation information where required by the project. Alternative products are subject to review and approval by the project owner or design professional.

Suggested language is a starting point for the project team. Confirm product suitability, concrete conditions, site layout, accessibility and project-specific requirements before procurement. No load ratings, engineered certifications or compliance claims are made in this pack.

Commercial site planning.

BOARD LAYOUT & SURROUNDING SPACE

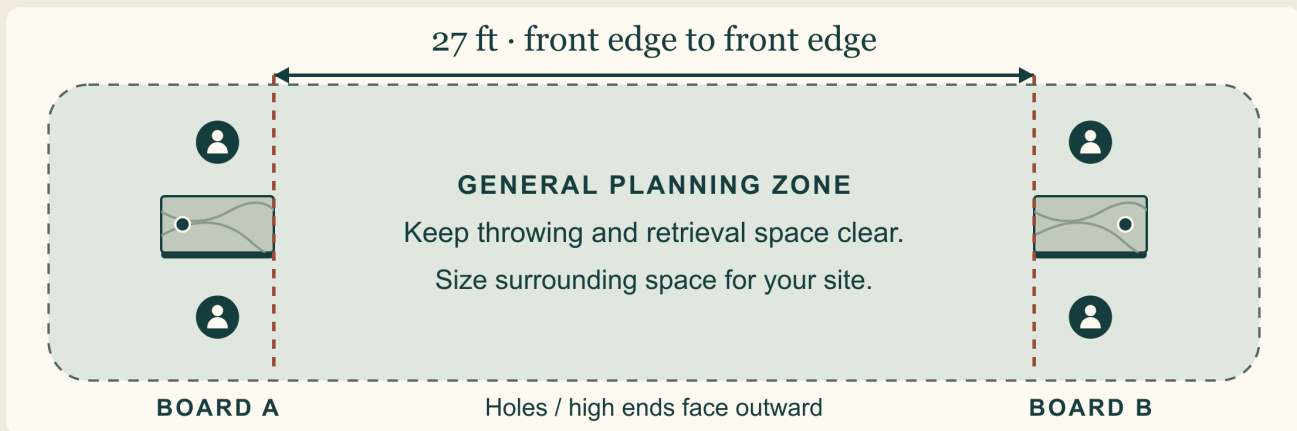

STONEBUILT / CORNHOLE

REAL GRANITE. GOOD TIMES.

Commercial site planning

TWO BOARDS. ONE SHARED PLACE TO PLAY.

CONCEPT PLAN · NOT TO SCALE

Player positions beside boards

--- Front edge = foul line

Plan room for players, movement and bag retrieval. Keep through-traffic outside the playing area. Surrounding space is general guidance, not a required clearance or confirmed total footprint.

OPTIONAL ANCHORING

Standard StoneBuilt sets are non-anchoring. Optional Permanent Anchor Package: +\$50 per set, allowing Cedar or Metal frames to be anchored to concrete.

Final layout, clearances, anchoring and installation should be coordinated based on project and site requirements. This concept does not establish engineering, accessibility or code compliance.

48" x 24" x 1 3/16" · 3 cm granite

stonebuiltcornhole.com

Official 27-foot board spacing and the front-edge foul line are referenced to the [American Cornhole Association rules](#). Surrounding site space is general guidance, not a code requirement or confirmed total footprint.
